Allowable Subject Matter

1. Claims 1-13 are pending and allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art of Conklin (US 6,141,653) teaches a multivariate negotiations engine for iterative bargaining which: enables a sponsor to create and administer a community between participants such as buyers and sellers having similar interests; allows a buyer/participant to search and evaluate seller information, propose and negotiate orders and counteroffers that include all desired terms, request sample quantities, and track activity; allows a seller/participant to use remote authoring templates to create a complete Website for immediate integration and activation in the community, to evaluate proposed buyer orders and counteroffers, and to negotiate multiple variables such as prices, terms, conditions etc., iteratively with a buyer.

In regarding to independent claims 1 and 10, Conklin taken either individually or in combination with other prior art of record fails to teach or render obvious the contract price being determined based on the data values input via the data input fields and based on a first predetermined criteria when a positive evaluation result is generated and based on a second predetermined criteria when a negative evaluation result is generated.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
